We loved our trip so much from over the summer, we booked a trip to come back to see the fall foliage and it did not disappoint! Julie was a wonderful host as usual, and it's so nice to just pack up our clothing, food, dogs and go! We have now stayed at both of the Evensong Farm sites and really loved Autumn Olive! It's close to the creek and offered amazing views. We will be back soon!

We had a really lovely time - the site was beautiful, extremely private, and had everything we needed to disconnect and relax for the weekend. Would definitely come back!

This place was great! Had everything we needed, was so peaceful and serene. Loved how we felt tucked away from everything. Yet not too far from town. Dogs liked it too 😊

Amazing place to stay! We loved the location and the site. The tent had plenty of room and the host's are incredibly helpful.

This was my second stay with family and we had a wonderful time once again. The privacy and gorgeous surroundings are exactly what we wanted for a family camping trip.

What a fantastic couple of days in this beautiful spot. Handily located but wonderfully remote and peaceful, Julie has got this small site set up brilliantly and has clearly given it a lot of thought and care - from the shower and well-maintained compost toilet to the access paths being kept in great condition and the plentiful supply of firewood at reasonable prices. We're regular campers, but only

in the US for a short time and do not have our gear with us - and so to have pretty much everything we could need provided made for a fantastic stay. The main tent was very comfortable and well kitted out, the additional tent spacious, Though one day was wet - the site was well geared for it with the communal covered area and a stack of board games. We loved the campfires, the stars, the sounds of the birds and playing around the creek. The communication with Julie before the stay and whilst there was excellent . The guide to the site and the surrounds was really useful and comprehensive. Go and stay there!! And the kitchen add-on pack was brilliant - everything you need to be fully self sufficient (apart form the food which you should pack yourself!).

We had a wonderful stay. The photos don't do it justice! This little retreat is beautiful and secluded but has everything you need! Don't question yourself, just book it! You won't regret it

Julie really takes her time to put in all the special touches. My husband and I have been to a bunch of tentrr locations and this was our absolute favorite! The campsite is so well equipped that we felt completely comfortable and content in the pouring rain. The property is beautiful and secluded.

I had the pleasure of spending a weekend with my fiance and our friends at autumn olive and it did not disappoint. There was everything we needed on site and Julie was always so responsive and easy to communicate with if there was anything else we needed. The site is beautiful. We spent one of our days at the creek and everyone has a blast. We can't wait to plan another trip!

It's pretty difficult to describe how fun and amazing this camping experience was. We are a family that loves the great outdoors and Tentrr, along with our host(s) just took it to another level. We will be back, again, again and again.

This was a beautiful, secluded getaway in gorgeous setting, and the amenities were very thoughtful. One thing I recommend is clarifying what exactly you provide at the campsite and what guests should bring; I say this because Tentrr sent a packing list that had a lot of items on it we didn't need, such as toilet paper, paper towels, matches and water. Also maybe include some instructions for swimming in the creek. Some people may not know they should wear shoes in there, for example. All in all we had a wonderful time and I keep telling everyone I know who camps that they should visit!

We loved the seclusion and set up of this site! It was great to have both open space and forest trails, and the bed was super comfortable. I've stayed in another TentRR that had more cooking amenities, including coffee, which would be nice to have here. The other one used individual bags for toilet use, and this site has a compost system that is bit more labor intensive. Still a good experience with lots of fun memories!

Not to be missed - great set-up. You will have EVERYTHING you need, and more. Julie has really done a great job setting this up and ensuring you are in good shape. The property is wonderful and well maintained (mowed walking paths), extremely private and removed. The proximity to things like the AT, Sherperdstown, C & O Canal trail, is phenomenal. Highly recommend, we will be returning.

The property the tent is on, is very nice. You have access to a pool, a tennis court, a basketball court, and a fire pit! And if you have kids there was a little play structure for them too. It's in a good location around a lot of hiking trails and things to do. The owners live very close to the tent and are there to help you with anything you need. They were very nice! Be warned if you have a small dog, keep them leashed during the night because there are coyotes around! Overall, great experience and would recommend to anybody!

We wanted to celebrate our 8th wedding anniversary in a unique way and after camping at the "Autumn Olive" at Evensong Farm, we can say that we got the adventure we were looking for! Julie, the landowner, was very kind and attentive to our needs. She guided us and explained everything we needed to know to have a pleasant stay. Our car got stuck in the muddy grass while going up the hill, but Julie knew all the tricks to help us and get off that trouble! Our kids (a 4 and 6-year-old) had

a blast as well. I would recommend coming ready with cans of food, a cooler with ice, drinks, a bottle of oil (which we forgot) and a towel. Bring some toys, a kite, a ball and coloring books for the kids to keep them busy and happy. We loved some of the boarding games we found inside the tent. We look forward for our next camping adventure and highly recommend this place. Thank you so much Julie! Our kids said that you were the best!

What a lovely space. Julie, our host, was super accommodating and made sure we had everything that we possibly needed during our stay at the Tentr site. We plan to return in the Spring/Summer to fully enjoy all of the warm weather activities that our stay in November prevented us from partaking in—but the November colors of foliage all around us were amazing! Thanks, Julie! Evensong Farm is a treasure—a magical place!

My dogs and I had a lovely time here during our road trip from Texas to PA. It was clean, just as described and a lovely, remote location that felt very safe. Dog people: this is the place for you! They could run around and stretch their legs and wrestle each other without me worrying about upsetting other campers or hotel dwellers. We had close to a full moon while we were there which made for some beautiful patterns on the tent top. Best part of it was I didn't have to pack up my tent the next morning. Would definitely stay here again!

Awesome couple of nights at Evensong Farm! The Autumn Olive site was gorgeous and quiet and Julie (and gang!) were super helpful if we needed them. Great location in Sharpsburg right near the Antietam battlefield and close to Shepherdstown and Harpers Ferry. The amenities exceeded our expectations - I can't say enough good things! We'll definitely be back :)

My friends and I rented both campsites at Julie's farm (autumn olive and wineberry). They were better than we could have hoped and Julie was wonderful. Julie met us when we got there and she gave us a tour and showed us

everything. She went above and beyond and even put up lights on the path between the two campsites to make it easier for us! Definitely recommend.
